

Requesting E-Books and E-Audiobooks

The Beehive Library Consortium is a group of public libraries in the state organized to make a greater number of e-books and e-audiobooks available to their patrons. Due to budget constraints, a title is not generally purchased unless there are multiple patron requests.

Unfortunately you cannot request titles for the library to purchase in the Libby App. However you can request them if you go to the Overdrive website.

Submitting suggestions through OverDrive (our eBook vendor) is the fastest and easiest way to suggest an eBook or eAudiobook for purchase. This will automatically put you on hold for the title if we are able to purchase it.

1. Go to beehive.overdrive.com and log in using your library card number and pin.
2. Search for the title of the book you want to suggest.
3. On the results page, select Recommend to library under the "Availability" filter. Titles the library doesn't own are added to your results.
4. To tell which titles aren't part of the digital collection, look for a Not owned banner and Recommend link. Click or tap Recommend to recommend a title.
5. A pop-up will open where you can choose to be placed on the wait list or just be notified if your library purchases the title.
6. Select Recommend this title to complete your recommendation.

If you do not see the title you're looking for, it is not available for OPL to purchase as an eBook or eAudiobook.
