1. LIGER’S DEN: The Liger’s Den is your number one library stop for littles. It has a window that kids love looking outside at, a puppet theater with a basket full of puppets to put on shows with and make silly voices for, rocking chairs, little tables, and chairs, and our recently added wall of toys for babies to interact with. And also board books, which can be pulled off the shelves and put back in completely random order because kids worship chaos.

2. STORYTELLING WING: When there isn’t a program going on, the space is very open and toddlers love using the colored squares to play tag, the ground is lava, and other games that probably will not make sense to you. It’s also a nice, out of the way place to just let out some energy, practice tummy time, sing to your baby, chase and tickle your kiddos, or socialize with other parents and kids.

3. STORYTIME: Storytime is a great way to get your baby’s energy out before naptime and to learn some fun stories, songs, fingerplays, etc. to try out at home. Plus you get to socialize and laugh at your baby’s reactions to the storyteller and the other kids. Laptime is generally for a younger audience and storytime is more for pre-school age kids. But I have brought my baby toboth if she’s in a good mood because the more you learn, the more you can absorb and work on at home. Another perk is that you probably will not make sense to you, so it’s also a great way to pass the time.

4. ACTIVITY DAY CALENDAR: Every month the librarians print out a stack of calendars with learning/activities to do on each day (they are on the bookshelf in the Liger’s Den). The activities are simple, easy, and once again give you that satisfying feeling of having been productive and totally rockin’ the whole “raising a human” gig. Put one on your fridge at home for when we need ideas.

5. STAINED GLASS WINDOW: At some point, your child is going to fall in love with the stained glass window art, “Windows to the Imagination.” It is destiny. When that happens, be ready. Ask the librarians for books about the fairy tales featured on the wall and make sure you know them—really know them, not just the Disney version. The librarians can even give you a sheet of paper with the history of the stained glass window and an activity sheet that gives you a list of featured fairy tales, characters and objects to find on the windows (my favorite is “dismembered fingertips”), and some conversation-starting questions.

6. LEGO AT THE LIBRARY: Have you heard about our new Lego at the Library program? If not, check out the details in the center of the newsletter. My baby is much too young to play with the Legos they use in the class, but we have traveled with the bags of Duplos that are available to check out at the Children’s Desk while Lego at the Library is going on.

7. 1000 BOOKS BEFORE BIRTH: This program started here almost two years ago and has been great fun for our little patrons and their parents. The idea is very simple—keep a book log and try to read 1000 books before kindergarten. You also get small prizes to celebrate milestones and an annual party at the library for completing the program. Sign up and get a book/children’s book at the Children’s Desk.

8. SUMMER READING: You probably already know about the children’s summer reading program at the library, but did you know that we also have a baby summer reading program for kids under 2? All you have to do is set some reading goals and if you keep them every week you get to have your brochure stamped and receive board books for prizes. You also get to attend a special storytime for kids under 5 in the Liger’s Den while the regular summer reading programs are going on.

9. CHECK OUT ALL THE THINGS: It’s surprising how much more enjoyable reading to your baby becomes when you’re reading something besides the same five books over and over. But there’s a ton of stuff to check out for your babies besides books, including DVDs from our “Very Young” section, kits that contain a collection of items related to a theme (such as nursery rhymes, wordless books, 123s, ABCs, holidays, and many more), and CDs that are great for dancing, learning rhymes and rhythms, and expanding your musical repertoire.

10. TAKE PICTURES: Take a picture of your baby at the library and post it online and tag us. You should be taking pictures of your baby all the time anyway because it’s a great way to pass the days, it creates memories, and your baby is cute as heck. Tag us @OremPublicLibrary on Facebook, Twitter, or Instagram and we will like it and likely share your photo or include it in a future blog post and you will feel famous.

BONUS REASON: Before or after your library visit, stop and play at the All-Together Playground, which is located just up the road at City Center Park, was finished just last year, and is full of cool playground equipment for all ages and abilities. It is generally for a younger audience and storytime is more for pre-school age kids. When this happens, I almost always think first of Worship Chaos.

One of the best things about the library is that it truly is for all ages, whether you’re over 100 or under one. Speaking of the latter, if you happen to have a very small person in your life, you might occasionally get the urge to leave the house or lose your mind. When this happens, I always think first of going to the library. Here are ten tasks that you can do with even your littlest
MARCH & APRIL 2017

The Orem Library presents the 8th annual Research Revolution series, featuring presenters and programs that highlight exciting and innovative STEM (Science, Technology, Engineering, and Mathematics) stories and research taking place in our community. This year there will be four programs for children/families and six presentations for teens/adults. Programs begin at 7:00 PM in the Storytelling Wing.

RESEARCH REVOLUTION FOR TEENS/ADULTS

March 14, Tuesday: Tardigrades in Antarctica
This January, Josh Heward visited Antarctica as part of the Polar TREC (Teachers and Researchers Exploring and Collaborating) expedition to study tardigrades, notoriously hardy microscopic organisms. Josh teaches Zoology, Biotechnology, and AP Biology at Timpanogos High School in Orem, Utah, where he shares his passion for biology by involving his students in authentic research experiences.

March 15, Wednesday: Dinosaur Science
Discover the latest cutting-edge information in the exciting field of paleobiology with Dr. Paul Bybee, who has expertise in vertebrate paleobiology, biology, and evolutionary biology. Dr. Bybee often collaborates with top scientists on dinosaur research and has worked on dinosaur bone histology and evolution in conjunction with Dr. John Horner, the main advisor to the Jurassic Park movies, and as a consultant for the BBC’s Walking with Dinosaurs.

March 19, Tuesday: Utah Valley Earth Forum
Join the Utah Valley Earth Forum—an independent, environmental, citizen organization—for a screening and discussion of the new National Geographic, Leonardo DiCaprio-narrated film Before the Flood, an account of the changes occurring in the world as a result of global climate change.

March 28, Tuesday: Crash-Testing Bacterial Spores
Bacteria are tough little creatures. Researchers are often surprised at the extremes bacterial cells can survive, and BYU's Daniel Austin and his students are testing their limits. They crash bacterial spores at incredible rates of speed to see if they will survive. Join Austin for a presentation of his work and its implications in fields such as space exploration and nanotechnology.

April 11, Tuesday: Christine’s Story
Mechanical engineering student Christine Moore earned the 2016 Student Development Award at the Women Tech Council’s ninth annual Women Tech Awards last September. The first female employee at the mechanical engineering projects lab, Moore was the lead machinist on the BYU Mars Rover team for three years and has made movie-grade costumes, props, and a flying-wing RC airplane as part of her study of robotic prosthetics, all while raising a two-year-old. Join her for a closer look at how she discovered her passion for STEM, her projects and research interests, and her advice for young girls and teens who are interested in pursuing STEM careers.

April 12, Wednesday: Biomaterials in Medicine
A powerful, brooding plantation owner in the wild South American jungle along with his charming American mail-order bride are threatened by the advance of relentless killer ants making their way across the jungle.

April 15, Saturday: Teen After Hours: Project Scientist
A tough aspiring chef is hired to bring home a mobster’s son from the Amazon, but becomes involved in the fight against an oppressive town operator and the search for a legendary treasure.

MARCH | WELCOME TO THE JUNGLE! 6:30 PM

MARCH 3, FRIDAY
The Jungle Book (PG, 2016)
After a threat from the tiger Shere Khan forces him to flee the jungle, a man-cub named Mowgli embarks on a journey of self-discovery with the help of Bagheera, a panther, and Baloo, a free-spirited bear.

MARCH 6, MONDAY
The African Queen (PG, 1951)
In Africa during World War I, a gin-swilling riverboat captain is persuaded by a strait-laced missionary to use his boat to attack an enemy warship.

MARCH 10, FRIDAY
Aguirre, the Wrath of God (Not Rated, 1972)
In the 16th century, the ruthless and insane Don Lope de Aguirre leads a Spanish expedition in search of El Dorado.

MARCH 13, MONDAY
George of the Jungle (PG, 1997)
A man raised in the jungle by apes falls in love with a wealthy American heiress.

MARCH 15, FRIDAY
Tarzan, having acclimated to life in London, is called back to his former home in the jungle to investigate the activities at a mining encampment.

MARCH 20, MONDAY
Swiss Family Robinson (Not Rated, 1960)
A Swiss family must survive being shipwrecked on a deserted island.

MARCH 24, FRIDAY
The Legend of Tarzan (PG-13, 2016)
Tarzan, having acclimated to life in London, is called back to his former home in the jungle to investigate the activities at a mining encampment.

MARCH 27, SATURDAY
The Naked Jungle (Not Rated, 1954)
A vivid, compelling look at the life of a rare animal sympathetic to the environment, with a hard-hitting look at the daily life of the people who depend on the jungle for their survival.

MARCH 31, FRIDAY
The Mosquito Coast (PG-13, 1986)
An eccentric and dogmatic inventor sells his house and takes his family to Central America to build an ice factory in the middle of the jungle.

NOW PLAYING AT THE LIBRARY

High definition film screenings and film events in the media auditorium Monday and Friday evenings.

MARCH 20, MONDAY
What is your favorite book?
The Unnamable by Lisa McMann
–Anna S.
The Selection by Kiera Cass
–Lauren B.
Wonderstruck by Brian Selznick
–Mara G.
Harry Potter by J. K. Rowling
–Marion H.
The Soldiers of Faith (Pendragon #110) by D. J. MacHale
–Will G.

If you were a vegetable, which one would you be?
A cucumber because they are delicious –Anna S.
Bell pepper –Glory T.
A carrot –Mara G.
Carrot –Marion H.
Celer –Riley G.
None. I hate vegetables! –Serin

RESEARCH REVOLUTION FOR KIDS

March 13, Monday: Chemistry Magic Show
Bring the whole family for an evening of scientific magic as UVU chemistry professors demonstrate for us the wild and wacky world of chemical interactions.

March 23, Thursday: Drones 101
Come and learn all about drones with Utah Drone Racing. There will be a brief presentation on the two general categories of drones you can fly as well as the technology behind racing drones, followed by a live demonstration.

April 4, Tuesday: Physics Outreach Show
BYU’s Society of Physics Students presents a show aimed at students in grades K–12 demonstrating just how fun and interesting physics and science can be.

April 6, Thursday: Live Animal Show
How well do you know the plants and animals that live in Utah? Educators from the Bean Museum will lead an interactive discussion on Utah’s diversity and introduce us to Utah’s three main ecosystems—wetlands, forests, and deserts—as well as the animals that live there.

March 28, Tuesday: Crash-Testing Bacterial Spores
Bacteria are tough little creatures. Researchers are often surprised at the extremes bacterial cells can survive, and BYU's Daniel Austin and his students are testing their limits. They crash bacterial spores at incredible rates of speed to see if they will survive. Join Austin for a presentation of his work and its implications in fields such as space exploration and nanotechnology.

April 11, Tuesday: Christine’s Story
Mechanical engineering student Christine Moore earned the 2016 Student Development Award at the Women Tech Council’s ninth annual Women Tech Awards last September. The first female employee at the mechanical engineering projects lab, Moore was the lead machinist on the BYU Mars Rover team for three years and has made movie-grade costumes, props, and a flying-wing RC airplane as part of her study of robotic prosthetics, all while raising a two-year-old. April 12, Wednesday: Biomaterials in Medicine
A powerful, brooding plantation owner in the wild South American jungle along with his charming American mail-order bride are threatened by the advance of relentless killer ants making their way across the jungle.

April 15, Saturday: Teen After Hours: Project Scientist
A tough aspiring chef is hired to bring home a mobster’s son from the Amazon, but becomes involved in the fight against an oppressive town operator and the search for a legendary treasure.
APRIL 6, THURSDAY
7:00 PM Storytelling Wing
Research Revolution: Live Animal Show

APRIL 7, FRIDAY
6:30 PM Media Auditorium
Film Screening: Yellow Submarine (G, 1968)

APRIL 8, SATURDAY
2:00 PM Media Auditorium
Tumbleweeds Film Festival Screening: A Cat in Paris (PG, 2010)

APRIL 10, MONDAY
6:30 PM Media Auditorium
Film Screening: The Thief and the Cobbler (PG, 1993)

APRIL 11, TUESDAY
6:30 PM Media Auditorium
Teen Library Council

APRIL 14, FRIDAY
6:30 PM Media Auditorium
Film Screening: Batman: Mask of the Phantasm (PG, 1993)

APRIL 15, SATURDAY
7:00 PM Media Auditorium
Teen After Hours Research Revolution: Project Scientist
All teens 12–18 are invited to the library to learn from local scientists about a variety of fascinating topics like fiber optics, forensic medicine, cave exploration, and robotics, as well as what it takes to be successful in these fields. Afterwards, teens will break into small groups to ask questions and perform hands-on experiments with the experts. Doors open at 6:30 pm and the program begins at 7 pm. There will be treats!

APRIL 17, MONDAY
6:30 PM Media Auditorium
Film Screening: The Secret of NIMH (G, 1982)

APRIL 18, TUESDAY
7:00 PM Storytelling Wing
Utah Valley Earth Forum
Founded in 2006, the Utah Valley Earth Forum is Utah Valley's independent citizen environmental organization working for good stewardship and a healthy environment. Learn more about this local, all-volunteer, and non-profit group at uvearth.org.

APRIL 20, THURSDAY
6:00 PM Storytelling Wing
Utah Valley Writers

APRIL 21, FRIDAY
6:30 PM Media Auditorium
Film Screening: Grave of the Fireflies (Not Rated, 1988)

APRIL 24, MONDAY
6:30 PM Media Auditorium
Film Screening: Pinocchio (Not Rated, 1940)

APRIL 28, FRIDAY
6:30 PM Media Auditorium
Film Screening: The Illusionist (PG, 2010)

APRIL 28, FRIDAY
7:00 PM Fireplace
Cantorum Chamber Choir
Cantorum is an award-winning ensemble of 30 singers known for their dynamic performances and varied repertoire. Many singers in the choir have solo careers and all have sung with top collegiate ensembles, including The Mormon Tabernacle Choir, Utah Chamber Artists, and Salt Lake Vocal Artists.

Tumbleweeds Film Festival Screening:
Eleanor’s Secret (NR, 2009)
Eleanor’s Secret is a beautifully designed, rollicking adventure in which a boy’s newfound ability to read not only sets his imagination free, but saves the day!

Utah’s Biggest Liar Preliminaries
Come watch the performers in the preliminary Liars contest. The event is a partnership between the Timpanogos Storytelling Institute and the Orem Public Library, and is free and open to the public. If you are interested in competing, visit timpli.org for registration information.

MARCH 13, MONDAY
6:30 PM  Media Auditorium
Film Screening: George of the Jungle (PG, 1997)
7:00 PM  Storytelling Wing
Research Revolution for Kids: Chemistry Magic Show

MARCH 14, TUESDAY
6:30 PM  Media Auditorium
Teen Library Council
Want to help plan teen programs, get volunteer experience, and make friends at the library? The OPL TLC meets each month on the second Tuesday. Applicants must be 14-18 years old. Contact Marilee at 801-229-7247 or visit oremlibrary.org for a volunteer application and for more information.

MARCH 15, WEDNESDAY
7:00 PM  Storytelling Wing
Research Revolution: Tardigrades in Antarctica

MARCH 16, THURSDAY
7:00 PM  Storytelling Wing
Research Revolution: Dinosaur Science

MARCH 17, FRIDAY
6:30 PM  Media Auditorium
Film Screening: The Rundown (PG-13, 2003)
7:00 PM  Fireplace
An Rogaire Dubh and The Thomas Cordiner Memorial Pipe Band
Join Utah’s great Celinic music group and special guests The Thomas Cordiner Memorial Pipe Band for their annual St. Patrick’s Day performance, featuring bagpipes, penny whistles, fiddles, drums, and more.

MARCH 18, SATURDAY
7:00 PM  Media Auditorium
Teen After Hours Movie Night: Dr. Strange (PG-13, 2016)
All teens 12-18 are invited to a special after hours screening of Dr. Strange at the library. Treats will be provided. Be here at 6:30 pm with your library card to browse and check out books before the movie starts at 7:00 pm.

MARCH 19, SUNDAY
7:00 PM  Storytelling Wing
Research Revolution: Crash-Testing Bacterial Spores

MARCH 20, MONDAY
6:30 PM  Media Auditorium
Film Screening: Swiss Family Robinson (Not Rated, 1960)
7:00 PM  Storytelling Wing
BYU Young Company: Macbeth
The BYU Young Company presents a nightmare story of listening to the wrong voices. Adapted and directed by Teresa Dayley Love, this production uses drumming, puppets, and masks to tell the cautionary tale of a Scottish knight who meets three witches who prophesy a startling future for him. Recommended for ages 10 and up.

MARCH 21, TUESDAY
