The Poisoner's Handbook by Deborah Blum

Off Armageddon Reef by David Weber

Last February, the Orem Library held our first STEM Like a Girl fair, inviting women in STEM careers from all over Utah County to talk about their scientific accomplishments and present their research through hands-on experiments and displays. But why is encouraging girls to pursue careers in STEM such a big deal?

Studies have shown we begin to treat boys and girls differently as young as five years old, marketing math and science primarily to boys through toys, games, books, and role models (both in real life and in the media). As a result, young girls often perceive that there is no place for them in STEM and then lack sufficient exposure to female role models and opportunities to explore their interest in STEM fields. This is particularly disturbing considering that female and male students perform equally well in mathematics and science on standardized tests in K-12 education (National Science Foundation, Science & Engineering Indicators, 2016). So what can we do to counter false stereotypes and help girls as well as boys to succeed in STEM from an early age?

Here are some ideas:

Encourage kids to follow their interests and explore subjects they want to know more about by finding books that discuss these topics. Learning how to research and dig deeper into an interesting topic is the groundwork for important scientific skills and habits. When getting books or movies, seek out strong female characters and positive female role models. Look for books by female authors, biographies of women in history, and depictions of women in STEM careers that help your children see a wide variety of roles and careers for women.

STELLAR HEROES

Be careful what you say and how you say it. Children are always watching and listening, and may internalize remarks or stereotypes and help girls as well as boys when generalizing about the behavior of boys and girls. When talking to young girls, it is especially important to discuss their interests, not just their looks. Make sure that you are not using grown-up, scientific, technical, or advanced language in your conversations with boys than you are with girls of the same age. It is better for developing an engineer-like mind.

When generalizing about the behavior of boys and girls, it is especially important to discuss their interests, not just their looks. Make sure that you are not using more grown-up, scientific, technical, or advanced language in your conversations with boys than you are with girls of the same age.

EXPLORE

Go on field trips to museums, national parks, zoos, aquariums, monuments, and other sites that offer knowledge and invite exploration and curiosity. Encourage children to ask questions and keep going back to spend time really studying and interacting with these sites and the people who work there. Going to library programs is another great way to discover and encourage your children’s interests. Don’t forget to go to this year’s STEM Like a Girl, happening Monday, March 4, from 6–8 pm in the Storytelling Wing. It is important for both boys and girls to see women as leaders, innovators, and educators in STEM fields and to recognize and value the contributions that women have made to our understanding of the universe.

CREATE

Kids are natural tinkerers, and nothing is better for developing an engineer-like brain than working with your hands on a project, whether it be a fancy princess castle or a mechanical robot. Provide your kid with plenty of opportunities to build, create, construct, take apart, and experiment with materials such as cardboard, construction paper, play dough, straws, tape, pipe cleaners, magnets, scissors, poster board, fabric, and whatever else they can find. Playing with Legos and wooden blocks is often the first step in teaching children basic design, math, and engineering principles that can be used for all sorts of STEM purposes.
Although women make up half the world's population and have made great contributions to art, science, and culture, historically their voices and experiences have been overshadowed by those of men. Can you give credit where credit is due? Wander the library to learn the stories of these brilliant, trail-blazing women, fill out the page, and show it to a librarian at the Children’s Desk or General Reference Desk for a reward.

**ACTUALLY, SHE DID THAT**

Virginia Woolf: "( _ _ _ ) ( _ _ _ _ ) ( _ _ ) ( _ _ _ _ _ _ _ , ) ( _ _ _ _ _ _ _ _ _ ) ( _ _ _ ) ( _ ) ( _ _ _ _ _ .)"

**CHIEN-SHIUNG WU**
Her male colleagues proposed an experiment which she conducted and which won the men the Nobel Prize in 1957, but she was not honored for her role in the discovery until 1978.

**FRANCES GLESSNER LEE**
She discovered a beautiful flowering plant that was named after her, and instead learned to create detailed, intricate miniatures.

**JEANNE BARET**
She discovered a beautiful flowering plant that was named after her, and instead learned to create detailed, intricate miniatures.

**KATHERINE JOHNSON**
She performed and checked difficult mathematical calculations which sent astronauts to the moon in 1969, but her story was largely untold until the release of Hidden Figures. What was her job title?

**KATE WARNE**
Before women even had the right to vote, she persuaded the Pinkerton Detective Agency to hire her as a detective. What major plot did she uncover in 1861?

**KATE WARNE**
Before women even had the right to vote, she persuaded the Pinkerton Detective Agency to hire her as a detective. What major plot did she uncover in 1861?

**ADA LOVELACE**
She wrote the first computer program in the mid-1800s, but was known primarily for being the daughter of Lord Byron until the 1950s. What sequence of numbers did the first computer program calculate?

**HEDY LAMARR**
For an extra challenge, look for a secret word on each woman’s portrait and computer program calculate?

**RoSALIND FRANKLIN**
She used X-ray crystallography to take the first pictures of DNA and made a major discovery, but her findings were stolen by competing scientists who took credit. What was her discovery?

**ACTUALLY, SHE DID THAT**

The Teen Zone is your online resource for all things Orem Library and teen-related. To go to the Teen Zone, either visit oremlibrary.org and click on “Teen Zone” or type in https://www.oremlibrary.org/teen-zone-home/. The Teen Zone is organized into five categories: Read, Homework Help, College & Career, Teen Events, and Teen Tips.

**READ**
All you need is a library card and you can read or listen to your favorite books on your smartphone or computer using Overdrive, RB Digital, and RB Digital Magazines. If you prefer the smell and feel of real books, check out our booklists or use the comprehensive database of reader advisory tools from NovelList to find the perfect book to read next.

**HOMESCHOOL HELP**
Use “Test Prep” resources to learn everything you need to get a driver’s license in Utah, ace the SAT/ACT, and get live one-on-one tutoring in math, science, writing, and more through Tutor.com. Spanish resources are available on the LearningExpress Library to help you achieve your education and career goals, get your green card, or become a U.S. citizen. Find journal articles, newspapers, and information on authors and novels for your next research paper using “Homework Help” databases. Then use “Research Tools” to create a bibliography, fact-check your paper, and cite your sources with the correct style guide.

**COLLEGE & CAREER**
Is college in your future? Check out college rankings and search for schools that meet your criteria with “Choose a College” links. Find helpful library books all about college prep and practice exams under the “Get Accepted” tab, then access information on federal student aid, scholarships, fellowships, and loans with “Pay for College” resources. Interested in a particular career? Visit our resources under “Choose a Career” to explore your options and learn how to apply for jobs, build your resume, pass exams, and acquire the skills you need to achieve your career goals.

**TEEN EVENTS**
Stay in touch with what’s going on at the library by checking our Google calendar and following us on Instagram, Facebook, and Twitter. We also have a monthly Teen After Hours event with treats provided.

**TEEN TIPS**
Age 13 is typically when teenagers begin to sign up for social media accounts. Educate yourself on cyberbullying, online privacy, and how to protect yourself from online predators, spam, fraud, viruses, and more with “Online Safety” resources. If you’re struggling with topics that are difficult to talk about, including your physical, mental, emotional, and sexual health, check out our “Teen Health” resources. If you need support dealing with abuse, depression, addiction, or other issues, follow our “Teen in Crisis” links to connect with trained counselors and advocates who can help. Go to “Volunteering” to get involved in your community, make a difference, and develop your resume by volunteering at the library or another organization on our list of local volunteer opportunities for teens.

**INVENT A PANCAKE**
March 23, Saturday
7:00 PM | Storytelling Wing

**MIYAZAKI MOVIE NIGHT**
April 20, Saturday
7:00 PM | Media Auditorium

**TEEN after HOURS**
Doors open at 6:30 pm and the event starts at 7 pm. Treats provided. For ages 12-18.

**Teen After Hours**
Doors open at 6:30 pm and the event starts at 7 pm. Treats provided. For ages 12-18.

**TEEN Library Council**
Want to plan teen programs, get volunteer experience, and make friends at the library? The TLC meets each month on the second Tuesday at 6:30 pm in the Media Auditorium. Applicants must be 14-18 years old. Contact Orem Library Outreach at 801-229-7042 or mmflinders-peay@orem.org for an application.

**Teen Any-Time Activity**
Come to the Teen area each month for a new activity you can do on your own and earn a treat.

**Teen Zone**
Visit the Teen Zone at oremlibrary.org/teen-zone-home to access online library resources for teens, including test prep, volunteer opportunities, and more.
MARCH & APRIL 2019 CALENDAR

APRIL 15, MONDAY
6:30 PM  Media Auditorium
Film Screening: Izzabek (NR, 2017)

7:00 PM  Fireplace
Cantorum Chamber Choir
Join Cantorum Chamber Choir for a spring concert with beautiful music from the Renaissance to modern day.

APRIL 17, WEDNESDAY
7:00 PM  Storytelling Wing
Organize Like a Pro with Vicki Winterton
Got clutter? Tired of the mess? Join home-organizing expert Vicki Winterton, of Organizing Mind over Matter, as she shares proven purging and organizing tips during this free workshop. She will show lots of before-and-after photos, answer questions from the audience, and present ideas to clear out the clutter for a simpler and more joy-sparkled life.

APRIL 18, THURSDAY
6:30 PM  Storytelling Wing
Family Evening Storytime
Join storytellers EJ and Anita for bilingual storytime! They will be reading Cuentos: A Folktale from Panama.

APRIL 19, FRIDAY
6:30 PM  Media Auditorium
Film Screening: I Am Not Your Negro (PG-13, 2016)

APRIL 20, SATURDAY
7:00 PM  Media Auditorium
Teen After Hours: Miyazaki Movie Night
Join us for treats and a mystery movie chosen by you! We’ll be reading Cuentos: A Folktale from Panama.

APRIL 22, MONDAY
3:30 PM, 4:15 PM, 5:00 PM  Storytelling Wing
Music for a rousing performance of Peter and the Wolf.

Wasatch Contemporary Dance Company Class
Kids ages 3–6 can put on their dancing shoes and try out different forms of dance in this toe-tapping class taught by Wasatch Contemporary Dance Company. Class repeats at 4:15 pm and 5:00 pm. Classes are free, but do require registration.

APRIL 23, TUESDAY
7:00 PM  Media Auditorium
Film Screening: The Eagle Hasn’t M 3:30 PM, 4:15 PM, 5:00 PM  Storytelling Wing
Join Cantorum Chamber Choir for a spring concert with beautiful music from the Renaissance to modern day.

APRIL 24, WEDNESDAY
7:00 PM  Storytelling Wing
Music for a rousing performance of Peter and the Wolf.

Joe McQueen Quartet
Orem isn’t the only one turning 100 this year—legendary saxophonist Joe McQueen was born May 30, 1919, and will celebrate his 100th birthday this year! McQueen has lived in Ogden for over 70 years and played with luminaries such as Charlie Parker, Count Basie, Duke Ellington, Hoagy Carmichael, and many others. He was the first African-American in Utah to have a mixed-race band and to play at previously white-only establishments. In 2002, April 18 was established as official “Joe McQueen Day” by the Governor of Utah. Join the “King of O-Town” and his quartet for an unforgettable evening of great jazz.

APRIL 25, THURSDAY
6:00–8:00 PM  Storytelling Wing
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

APRIL 26, FRIDAY
6:30 PM  Media Auditorium
Film Screening: Won’t You Be My Neighbor? (PG-13, 2018)

APRIL 29, MONDAY
6:30 PM  Media Auditorium
Film Screening: Born in China (G, 2019)

MARCH EVENTS

MARCH 1, FRIDAY
6:30 PM  Media Auditorium
Film Screening: Rebecca (NR, 1940)

MARCH 2, SATURDAY
1:00 PM  Storytelling Wing
Peter and the Wolf
Join the Woodwind Family Quinter from BYU School of Music for a rousing performance of Peter and the Wolf. The timeless classic will help you learn about the woodwind family of instruments while enjoying a tale of a little boy who liked to play pranks.

MARCH 4, MONDAY
6:00–8:00 PM  Storytelling Wing
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

MARCH 5, TUESDAY
7:00 PM  Media Auditorium
U.S. Census Informational Meeting
The U.S. 2020 census begins next March. Join a representative from the U.S. Census Bureau to find out general information about the upcoming census and the importance of participating in it, as well as opportunities and jobs with the Bureau.

MARCH 6, WEDNESDAY
7:00 PM  Media Auditorium
Timp Tellers: Record Your Stories
Need a recording of your work? Tonight you can get just that. Come with a prepared story and a recording device. We will be a great audience to make the stories come alive.

MARCH 8, FRIDAY
6:30 PM  Media Auditorium
Film Screening: Smoke Signals (PG-13, 1998)

MARCH 10, SATURDAY
6:00–8:00 PM  Media Auditorium
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

MARCH 11, SUNDAY
11:00 AM  Media Auditorium
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

MARCH 15, WEDNESDAY
6:30 PM  Media Auditorium
Film Screening: Smoke Signals (PG-13, 1998)

MARCH 18, SATURDAY
7:00 PM  Media Auditorium
U.S. Census Informational Meeting
The U.S. 2020 census begins next March. Join a representative from the U.S. Census Bureau to find out general information about the upcoming census and the importance of participating in it, as well as opportunities and jobs with the Bureau.

MARCH 20, MONDAY
6:30 PM  Media Auditorium
Film Screening: Smoke Signals (PG-13, 1998)

MARCH 21, TUESDAY
7:00 PM  Media Auditorium
U.S. Census Informational Meeting
The U.S. 2020 census begins next March. Join a representative from the U.S. Census Bureau to find out general information about the upcoming census and the importance of participating in it, as well as opportunities and jobs with the Bureau.

MARCH 22, WEDNESDAY
7:00 PM  Media Auditorium
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

MARCH 23, THURSDAY
6:30 PM  Media Auditorium
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

MARCH 24, FRIDAY
6:30 PM  Media Auditorium
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

MARCH 27, MONDAY
6:30 PM  Media Auditorium
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

MARCH 28, TUESDAY
7:00 PM  Media Auditorium
Research Revolution: STEM Like a Girl
Who runs the world? STEM Girls! Join us for our second annual STEM Like a Girl fair, featuring interactive displays, experiments, and presentations highlighting the research of women in STEM fields from all over the Wasatch Front. This event is part of our ongoing partnership with NASA @ My Library, an initiative from the American Library Association and the Space Science Institute to restore America’s passion for science, technology, engineering, and math.

MARCH 29, WEDNESDAY
6:30 PM  Media Auditorium
Film Screening: My Fair Lady (G, 1964)

MARCH 30, THURSDAY
7:00 PM  Media Auditorium
U.S. Census Informational Meeting
The U.S. 2020 census begins next March. Join a representative from the U.S. Census Bureau to find out general information about the upcoming census and the importance of participating in it, as well as opportunities and jobs with the Bureau.

MARCH 31, FRIDAY
6:30 PM  Media Auditorium
Film Screening: Smoke Signals (PG-13, 1998)
**MARCH 9, SATURDAY**
1:00-4:00 PM  Storytelling Wing
Research Revolution: 3D Printing Faire
Are you a part of the 3D printing revolution? Would you like to learn more about local 3D printing resources, including right here at the library? Bring your coolest 3D printed creations or visit with local experts about how to get started. BYUtv will be on hand filming interviews and footage for a new reality show.

2:00 PM  Media Auditorium
Family Flis: Le Petit Nicolas (G, 2009)
The film is narrated from the perspective of young Nicolas who is content with his life, loved by his family, and has fun with his school friends. One day, Nicolas overhears his parents talking and suspects his mother is pregnant and his parents want to get rid of him. This movie will be shown in French with English subtitles. Recommended for all ages. 87 min.

**MARCH 11, MONDAY**
6:30 PM  Media Auditorium
Film Screening: On the Town (NR, 1949)

6:00 PM & 7:30 PM  Storytelling Wing
Research Revolution: Chemistry Magic Show
Join Dr. Kevin Shurtleff from UVU and explore the wonderful, magical world of chemistry. There will be two shows.

**MARCH 14, THURSDAY**
7:00 PM  Storytelling Wing
Storyteller Barbara McBride-Smith
As a performing storyteller, Barbara McBride-Smith has entertained audiences across the U.S. and is frequently featured at the National Storytelling Festival in Jonesborough, Tennessee, and the Timpanogos Storytelling Festival. Don’t miss this fun-filled evening of story.

**MARCH 15, FRIDAY**
6:30 PM  Media Auditorium
Film Screening: Monterey Pop (NR, 1968)

**MARCH 16, SATURDAY**
1:00-4:00 PM  Storytelling Wing
Research Revolution: STEM Shorts
Come broaden your knowledge of history, education, and scientific research happening in our community! Join us for a day of short presentations and talks from local scientists, researchers, and educators as they discuss a variety of topics from climate change to Utah Lake’s endangered June Sucker fish to treating cancer with therapeutic proteins.

**MARCH 18, MONDAY**
6:30 PM  Media Auditorium
Film Screening: Bad Day at Black Rock (NR, 1955)

**MARCH 20, WEDNESDAY**
7:00 PM  Media Auditorium
Orem Library Book Club: The Soul of an Octopus by Sy Montgomery
An astonishing exploration of the emotional and physical world of the octopus—a surprisingly complex, intelligent, and spirited creature—and the remarkable connections it makes with humans. By turns funny, entertaining, touching, and profound, the book reveals what octopuses can teach us about ourselves. Recommended for grades 9–12. Vocal and instrumental artists will perform amazing acts of harp playing, penny whistles, fiddles, drums, and more.

**MARCH 21, THURSDAY**
7:00 PM  Fireplace
An Rogaire Dubh
Join Utah County’s great Celtic music group and special guests The Thomas Cordner Memorial Pipe Band for their annual St. Patrick’s Day performance, featuring bagpipes, penny whistles, fiddles, drums, and more.

**MARCH 22, SATURDAY**
2:00 PM  Media Auditorium
Film Screening: One-Eyed Jacks (NR, 1961)

**MARCH 23, SUNDAY**
7:00 PM  Storytelling Wing
Family Evening Storytime
Melva Gifford will present a workshop on improving your storytelling skills. No foolin’! Come see who wins the title of the champion tale spinner for 2019.

**MARCH 24, MONDAY**
6:30 PM  Storytelling Wing
BU Young Company: The Comedy of Errors
Shakespeare’s slapstick comedy full of hilarious mistaken identities and mishaps. Be prepared to laugh until you cry at this farce! Two sets of twins are separated at birth. Now grown up, will they each find each other at last or will the whole town run mad with confusion? Students will develop a whole new appreciation for Shakespeare as they cheer for their favorite twin and marvel as each “error” becomes more ridiculous. This play is presented for 3rd grade and up.

**MARCH 25, TUESDAY**
7:00 PM  Fireplace
Utah Music Teachers Association Honors Concert
Join the top students of Provo and Orem teachers belonging to the Utah Music Teachers Association for an honors recital.

**MARCH 26, WEDNESDAY**
7:00 PM  Media Auditorium
Film Screening: Cinderella (G, 1950)

**MARCH 27, THURSDAY**
7:00 PM  Storytelling Wing
Utah Valley Earth Forum
Want to help the environment, air quality, our water, our land, Utah Lake, and the planet? Here’s your opportunity to meet Utah’s top environmental stewardship organizations and hear what they do and how you can help make things better and healthier for all of us and for future generations. The following organizations will be represented: The Nature Conservancy, Utah Physicians for a Healthy Environment, Utah Rivers Council, LDS Earth Stewardship, Sierra Club, HEAL Utah, Utah Clean Energy, Utah Valley Earth Forum, Southern Utah Wilderness Alliance (SUWA), and Climate Utah.

**MARCH 28, FRIDAY**
7:00 PM  Theater
Utah Baroque Ensemble Scholarship Concert
BYU Baroque Ensemble presents its annual student scholarship competition, open to all Utah County students in grades 9–12. Vocal and instrumental artists will perform works from the masters of the Baroque era and will be judged on their skill and mastery of the Baroque style.

**MARCH 29, SATURDAY**
7:00 PM  Storytelling Wing
Teen After Hours: Invent a Pancake
Join us for a night of adventurous cooking and kitchen chemistry as you invent a one-of-a-kind pancake using mystery ingredients. Treats will be served while the pancakes are tasted by a panel of judges. Doors open at 6:30 pm and the event starts at 7 pm. The library will be closed during the program and teens are expected to remain until the event is finished. The event will conclude around 9:00 pm. For ages 12-18 only.

**MARCH 30, SUNDAY**
3:00 PM  Media Auditorium
Classical Piano Concert
Classical pianist Amalie Simper presents a program of beautiful works from the masters of the Baroque era and will be judged on their skill and mastery of the Baroque style.

**APRIL 1, MONDAY**
5:30 PM  Storytelling Wing
Utah’s Biggest Liar Youth Contest Finale
6:30 PM  Media Auditorium
Film Screening: One Amazing Day (G, 2017)

7:00 PM  Storytelling Wing
Utah’s Biggest Liar Finale
This is one of the funnest and funniest programs we host! No foolin’! Come see who wins the title of the champion tale spinner for 2019.

**APRIL 4, THURSDAY**
6:30 PM  Storytelling Wing
Family Evening Storytime
Join Julie Olsen for an interactive storytime.

7:00 PM  Media Auditorium
Timp Tellers: Hero’s Journey Workshop
Melva Gifford will present a workshop on improving your storytelling, writing, or presentation by incorporating the hero’s journey into the story.

**APRIL 5, FRIDAY**
6:30 PM  Media Auditorium
Film Screening: Three Identical Strangers (PG-13, 2018)

**APRIL 8, MONDAY**
6:30 PM  Media Auditorium
Film Screening: Step (PG, 2017)

**APRIL 12, FRIDAY**
6:30 PM  Media Auditorium
Film Screening: RBG (PG, 2018)

7:00 PM  Storytelling Wing
Classical Piano Concert
Classical pianist Amalie Simper presents a program of beautiful works for piano by Handel, Schubert, Monti, Barber, and more.

**APRIL 13, SATURDAY**
7:00 PM  Media Auditorium
Family Flis: Spirited Away (PG, 2001)
When a young girl gets trapped in a strange new world of spirits, she must call upon the courage she never knew she had to free herself and rescue her parents. Recommended for ages 9 and up. 125 min.
